5. Read the text about Thomas Edison and answer the questions.

THOMAS EDISON

Thomas Edison was one of the most important inventors in our history. He was born in Ohio, USA, in 1847. He used to be a very curious child, therefore he had problems at school. Then he started to be educated at home by his mother, a former teacher. He became partly deaf at the age of 12 from a disease. He did his first experiments in his parents' cellar.

At the age of 22 he moved to New York and started selling his first inventions. With this money, he created his lab in Merlo Park. There he patented more important discoveries like the phonograph, the new telegraph system, a very important version of the light bulb or the kinetoscope. During his life, he patented more than one thousand inventions. He was known as the Wizard of Merlo Park.

1. Where was he born? _____
2. Who was his teacher at home? _____
3. What was his mother's job? _____
4. At what age did he become deaf and why? _____
5. How old was he when he moved to New York? _____
6. Where was his lab in New York? _____
7. What important inventions did he patent? _____
